Partner

with the team that understands your drug delivery needs.

Comprehensive solutions in drug delivery.

Baxter
A comprehensive solutions approach

Baxter understands that these challenges aren’t going to be met with products alone. That’s why we take a solutions–based approach to drug delivery, with a portfolio that has the breadth and depth you need to optimize your IV operations. One size never fits all, so we can work with you to create a custom solution that integrates 3 key elements:

- **Products:** Ready-to-use, ready-to-mix, and manual admixture drug delivery options
- **Services:** Training, education, and implementation
- **Support:** Product assistance on site, online, or over the phone

**A process that starts with you**

From day one, Baxter works with you in developing your best solutions to reach our common goal: better patient care.

Enhanced patient care relies on focus in every area.

**Food**

- **Evaluate** your operations
- **Optimize** products and processes
- **Implement** your solutions
- **Enhance** patient care

A 75-year history of innovative firsts.

- **1930s**
  - First commercially manufactured intravenous (IV) solutions
- **1940s**
  - First sterile vacuum-type blood collection and storage unit
- **1950s**
  - The first flexible plastic blood-collection container
- **1970s**
  - The first plastic container for IV solutions
  - The first automated blood-cell separation system
- **1980s**
  - Aseptic prepared frozen premix
  - Twin BAG CAPD system
- **1990s**
  - First needleless system for IV therapy
  - Multichamber bag for parenteral nutrition
- **2000s**
  - First albumin in a flexible plastic container
  - First antimicrobial coating on IV access system valve
Baxter offers one of the most comprehensive drug delivery portfolios in the industry. Our goal is to assist you in creating the right blend for your facility—with safety, efficiency, and compliance in mind.

When you partner with Baxter, you have all the drug delivery options you need from just one company. And you can count on fully integrated solutions to cover your needs today and as your facility evolves.

### Drug delivery system continuum

</table>

#### Customized

- **MINI-BAG**
  - Ideal for custom-dose drugs
  - Available in 25, 50, 100, 150, and 250 mL sizes
  - Available in dextrose and saline diluents

- **VIAL-MATE**
  - Vial adaptor that links standard 20 mm powdered drug vials with Baxter’s MINI-BAG containers
  - Vial and bag can be attached without activation
  - Ideal with 250 mL preparations
  - Also compatible with 50 mL and 100 mL VIAFLEX containers

- **MINI-BAG PLUS**
  - Integrated diluent bag with an adaptor to create an admixture system
  - Can be activated at point of care
  - Uses standard 20 mm closure single-dose powdered drug vials
  - No exposed spike or needles
  - Bar-coded for bedside scanning

#### Standardized

- **Liquid Premix**
  - Standard doses minimize the chance for medication error
  - Reduces preparation steps
  - Shelf stable and compatible with automated dispensing equipment
  - Bar-coded for bedside scanning
  - Comprehensive line meets your needs for ready-to-use products

- **Frozen Premix**
  - The only ready-to-use system for unstable molecules (after thawing)
  - Reduces preparation steps
  - Manufacturer-prepared to ensure sterility and potency
  - Non-PVC and Non-DEHP GALAXY container
  - Bar-coded for bedside scanning
  - Compatibile with automated dispensing equipment

---

Rx Only. For safe and proper use of these devices, refer to the devices’ instructions for use.

**Partner with Baxter** to enhance safety, efficiency, and compliance.
Value beyond the products.

Baxter’s comprehensive line of advanced drug delivery solutions is just the beginning. Our broad service offerings provide you with the educational tools, clinical resources, and ongoing support you need to achieve your goals. Baxter can give you all the support you need to make the most of your products and enhance operations from pharmacy to bedside.

TRAINING AND EDUCATION
Product and practice

Baxter provides training and education on the issues and regulations that may impact your pharmacy, available in a variety of media to meet the needs of you and your busy staff.

Product training
- Inservice training and support for the usage of Baxter products
- On-site implementation tools in support of Baxter products

Practice-related education
- Baxter Blue Book (IV admixture training) now updated and available online
- PHARMACY ADVISOR programs providing educational support for ongoing or timely pharmacy issues
- Industry educational materials

Online Continuing Education (CE) programs
Baxter sponsors CE programs hosted by a variety of online learning management systems.
- Supported by the Accreditation Council for Pharmacy Education and the American Nurses Credentialing Center Commission on Accreditation

CLINICAL SERVICES
Expert guidance from Baxter clinicians

Baxter Clinical Services is a team of experienced pharmacists and nurses who can work with you through a variety of programs from our CONNECTIONS PORTFOLIO. This team can evaluate your processes, identify gaps, and develop actionable recommendations.

Our CONNECTIONS PORTFOLIO programs for drug delivery include:
- Premix Optimization Program—Evaluation and implementation of premix, IV, and nutrition solutions
- I.V. Operations Assessment—An objective evaluation designed to eliminate inefficiencies, reduce waste, and enhance patient safety in your IV process management

Other CONNECTIONS PORTFOLIO programs include:
- I.V. S.C.A.N. Assessment (IV Survey for Compliance with Asepsis and Needleless systems)
- S.E.T.S. (System Efficiencies Through Standardization)
- VitalP.R.E.P. (Practice Review and Evaluation Program)

PRODUCT SUPPORT
Ongoing assistance whenever you need it

Access to answers or product help is critical to making your drug delivery solution a success.
- For general information about Baxter’s products and services, contact the Center for One Baxter: 1-800-4-Baxter (422-9837)
- For specific product information and support: 1-800-933-0303
